

Summer Entertaining

TUESDAY, JUNE 2, 2015 AT 06:57PM

Nothing says summer like having friends and family over for lunch, dinner, or a bbq. I like to see how others mix and match their china, accessorize their table, and of course I love to try new recipes. If you are like me and can't get enough of beautiful books and magazines showing effortless entertaining, I have the perfect book for you.

Annie Falk's new book **Hamptons Entertaining : Creative Occasions to Remember** offers delicious recipes for all your summertime occasions. If you are not much of a cook, but love a beautiful book on the coffee table where you can dream of the parties you would like to throw, you too will enjoy Hamptons Entertaining. Its also makes a perfect hostess gift if you are staying with friends this summer.

The beauty of Hamptons Entertaining is that it transitions from summer to fall so you will find recipes that range from from a cold peach soup to a delightful apple crisp. Each recipe looks more scrumptious than the next and nothing is overly complicated. So enjoy this little slice of heaven and feast your eyes on all the delightful dishes you can make for your friends and family this summer!

Annie Falk learned to cook from the legendary chef Roger Verge at Le Moulin de Mougins in Provence. She is the author of **Palm Beach Entertaining**.
